3 Instead of giving all the Sweepers an increase of pay they be graded into Classes 2 or 3 and 3 or 4 the Extra Cart will be given to Class 3. Similarly if amongst the Scavengers a vacancy is expected the Extra Cart can be reduced At present there are one Scavenger on 7 rupees three men Rs 10 & for the rest the 10 men their pay is proposed be raised from 6 to 8.

4 A jump from 7 to 10 does not seem to be necessary. Three be given 8 and 9 and 5 men given 8 and 5 others 7. In this Case the Extra Cart would 7 and all the Scavengers would have some increase. The total Extra Cost would be 4 Rs instead of 28 per mensem or 228 per annum. The Scheme as revised may perhaps be enhanced to keep the men from running away. The Cost should be met by savings in the Sweepers

9 Raising the pay of the ..... Conservancy Establishment of the Imperial Service Transport Corps.

****

Reference:- Dewan's queries on my letter No. 31 dated 19th May 1911.

::::::::::

Query 1:- No reduction in the Conservancy Establishment has been found practicable. There has been practically no change either in the nature or quantity of work done by them consequent on the present ..... reduction of the strength of ponies.

Query 2. The conservancy Staff came up to me in a body and complain -ed that they got less than the other Establishment of the Imperial Service Lancers and asked that their pay may be increased.

16 The Transport Lines are far away from Cantonments and the sweepers and scavengers of both Lines should I

think be treated similarly.

Query 3. The following is a ~~sta~~ statement comparing the scale of pay given to the Conservancy ... Establishments of the Imperial Service Lancers and Imperial ... Service Transport Corps.

I.S.L.	I.S.T.
1 scavenger @ ₹s10/-	1 scavenger @ ₹s 7/-
9 scavengers @ Rs 8/-	10 scavengers @ Rs 6/-
18 sweepers @ Rs 7/-	5 sweepers @ Rs 6/-

11 There should not be this difference in the scale of pay when the work done in both is of exactly the same nature.

12 They are subject to Military Law. as follows

16 What are the respective duties of the Scavengers & sweepers? Why is it that though the number of sweepers in the I.S.T. is less than 1/3 rd the number in the I.S.D., the number of scavengers in the I.S.T. is actually more than the number of scavengers in the I.S.D? The number of men served by the scavengers in the I.S.D & I.S.T. should be compared to see if any reduction in the number of scavengers in the I.S.T. can be effected to meet

NOTE—Contn. sheet.

Serial No.

19 for the reasons explained in the foregoing note of the Financial Branch I am respectfully of opinion that extra expenditure to the extent of Rs 28 per mensem proposed by the Military Secretary need not be sanctioned.

20 The present & proposed rates of pay are as follow:

		Rs		Rs	Rs
1	Head Scavenger	@ 7	proposed	@ 10	increase 3
10	Scavengers	@ 6	"	" 8	" 20
5	Sweepers	@ 6	"	7	" 5
					28

There is no objection to raise the rates of pay as proposed but the extra cost should be balanced by reducing the number of scavengers. In fact a comparison with the Imperial service standard, page 2 of Military Secretary's note to Dewan dated 22.8.1911 (page 5 of these notes) and a perusal of Military Secretary's note at Flag D show that 5 scavengers should suffice for the D.S.J. In fact the Military Secretary says in the note at Flag D that one scavenger for each Division is sufficient. If five scavengers are dispensed with the saving will be Rs 30/- p.m. & the Military Secretary's recommendation can be given effect to without extra cost.

Routine Notes.

[To be used only for notes, requisitions, etc., not intended for permanent record.]

It is really so long since I had anything to do with the Lancers that I forget how the proportion was made out. The information therefore had better be obtained from the Chief Commandant.

But for the Imperial service Transport Corps we have one Head man for the lot and 1 sweeper and 1 scavenger for each division. I consider that number by no means excessive for 508 fighting men.

The Imperial Service Lancers for 518 fighting men have a great many more but they have a good many syces.

What is the object of the enquiry?

a scavenger is a man who cleans out latrines
a sweeper one who sweeps up outside.
